Senior Fullstack Engineer

PROFILE

I'm a Software Engineer with 10 years of experience, capable of writing high quality code and provide analysis of the technical scope and viability of software projects. I have experience with cloud-based technologies to accomplish the design of reliable, scalable and cost-efficient software solutions. I also have experience leading software development teams and working alongside other teams.

TECH SKILLS

JavaScript, Typescript, ReactJS, Redux, NodeJS, AWS, GCP, Firebase, Rest API, GraphQL, Python, Django, GitHub, GitHub Actions, CircleCI, SQL, MongoDB, PostgreSQL, Jira, Confluence, Progress OpenEdge.
